MY STORY

After over 10 years in customer service, I found myself lacking any challenge or motivation in my life. Fast-forward to my coding-life now, and I couldn't have found a more perfect fit!

My transition into web development and coding has been a great journey and learning experience. I have found myself lost spending 8-10 hours at a time working on my projects, and yet I still look forward to the next day.

It has become the first time in my life that I can showcase my artistic side that I could never do before with my clumsy hands. But now with the keyboard I can! Working with JS, React, and CSS, I am constantly challenged that creates a fire within me that leaves me never wanting for motivation. A journey that I hope to continue forever.

EDUCATION

Juno College, Toronto ON | 2021

Immersive Web Development Bootcamp:
Certificate

Accelerated JavaScript Course

Con-Ed Web Development Course

York University, North York ON | 2014

Bachelor of Arts: Specialized Honours in
History

WORK EXPERIENCE

SALES ASSOCIATE: EATALY 2019-2020

- Worked alongside front office representatives to boost sales, specifically in detailing item positioning, location, and aesthetic.
- Was responsible for maintaining an accuracy of sales records, returns and inventory availability

SERVER/BOX OFFICE: MEDIEVAL TIMES 2016-2019

- Organized seating arrangements for over 1000 people at show, in a timely, orderly, and efficient manner. Guiding team members in the arena, and handling seating issues, and specific dietary restrictions
- Resolved conflicts and negotiated mutually beneficial agreements between parties

SALES ASSOCIATE: FRESHII 2014-2015

- Took lead on a new company venture, where Freshii was planning on broadening into delivery. I was their go-to for feedback on the program's longevity and its implementation. Discussed its benefits to Trade partners alongside with the CEO of Freshii - All of which led to me to win the first ever Freshii Global Ambassador Award
- Trained and developed new staff in delivery procedure
